

## MTU Profile

Mandalay Technological University is located in Patheingyi Township in the Mandalay Region which is in the middle of Myanmar. It lies at the foot of Yankin Hill and is very near to the ranges of Shan Mountains. It stands proudly in the green, wide and pleasant woodland areas. It is 20 kilometres away from Mandalay and has an area of 280 hectares.

MTU was established on the 1st October, 1991. Therefore it has been 28 years and it celebrated its silver jubilee anniversary in October 2016. Our university is the second largest technological university that produces many engineers, architects and technologists.

During the past 28 years, over 10, 000 students were graduated on science, engineering and architecture from this University. Currently, MTU is offering a total of 13 courses in Ph D, 11 courses in Master's programs and 11 courses in undergraduate courses. We also have a total of 223 teachers: 131 PhD holders, 75 Master's degree holders 4 in other degrees and 13 in visiting professors and lecturers who have been teaching their respective subjects to the engineering students. About 2000 students of undergraduates and postgraduates are now attending their respective science, architecture and engineering programs. The university has been making efforts to attempt not only academic research but also the applied and commercialized research for the technology demands of industries and business sectors according to the plan of research based University.

To produce outstanding engineers, architects and technologists through international quality-based education practices and to create a better education environment are the main core of our university. Strategic reforms are carrying out for students on the purpose of establishing education-based economy which can grant more career opportunities and equitable access to education through the world-class higher education system.

Based on education policies and objectives, MTU has been carrying out the development of engineering, architectural and technical syllabuses, upgrading the teachers' capacity, continuously fulfilling the needs of our students, supporting modernized and better teaching aids and lab equipment and implementing quality-based management system on teaching-learning practices.

To accomplish our mission, we are trying to implement Educational Quality Assurance systems from national level to regional level and then to international level in teaching, learning and administration in the fields of engineering and architecture. MTU is implementing two types of educational quality system; accreditation criteria of Federation of Engineering Institutions of Asia and Pacific (FEIAP) guidance under Engineering Education Accreditation Committee (EEAC) of Myanmar Engineering Council (MEngC) and quality assurance criteria based on ASEAN-QA guidance of National Accreditation and Quality Assurance Committee (NAQAC) formed by National Education Policy Commission (NEPC). MTU was now ISO: 9001-2015 certified University of International Quality Management System (QMS).

## Preface

Welcome to the Mandalay Technological University (MTU). Publicly Funded Research Organization (PRO) office has prepared this directory to share technical information about university facilities, staff capacity, research publication and training services. MTU Directory for Science and Engineering is supported by ASEAN Science, Technology and Innovation Funding Scheme (ASTIF) through ASEAN Committee on Science, Technology and Innovation (ASEAN COSTI) under 2018-19.

It mainly introduces university facilities for laboratory services on different kinds of technical area such as food and safety; renewable energy; environmental; material science; ICT; design, analysis and estimation; others etc. Training program, research work, consultant area and project collaboration offered by university are mentioned in this directory. Moreover, the directory also contains list of conference paper and journal of international contribution by academic staff who are already gained knowledge and experiences in their respective field of science, engineering and architecture. Our faculty, staff and students are ready to assist and support you on their expertise research theme area. I believe that this directory can provide to all industries and private services to fulfill the gap of technical issues.

Thank you for your interest in this directory. I hope you will have great opportunity by referencing MTU Directory for Science and Engineering.

## 3.1.8 Others

Serial No.	Area of Measurement	Equipment List	Contact Person
1.	To use for sterilization method အာဟာရပြင်ပေါင်းခံပိုးသတ်ရန်။	Autoclave, BioTech	common use
2.	To investigate the bacterial cells and their structure အကူအညီပိုးများ၏ ဇီဝရုပ်သွင်လေ့လာကြည့်ရှုရန်။	Microscope, BioTech	common use
3.	To use for aseptic culture for Microbes အကူအညီပိုးများ ကိုင်တွယ်ရာတွင် ပတ်ဝန်းကျင်နှင့်လူသို့ကူးစက် ပြန့်နှံ့မှုမှရှောင်ရန် စီမံထားသောနေရာ။	Biosafety Cabinet Level, BioTech	common use
4.	To weight the chemicals and Media အာဟာရပြင် ပါဝင်သောဓာတုပစ္စည်းများချိန်တွယ်ရန်။	Analytical balance, BioTech	common use
5.	To sterile and dry for glassware and others Lab ပစ္စည်းများ အခြောက်ခံစက်။	Oven, BioTech	common use
6.	To keep the bacterial isolates (culture plate and test tube) မွေးမြူထားသော Culture Cells Plates များသိမ်းဆည်းရန်။	Refrigerator, BioTech	common use
7.	To prepare the nutrient medium for microbial culture အကူအညီပိုးမွေးမြူရန် အာဟာရပြင်တွင် ပါဝင်သော ပစ္စည်းများ တစ်သားတည်း တည်ရှိနိုင်ရေးအတွက်အပူပေးမွှေရန်။	Magnetic stirrer with hot plate, BioTech	common use
